

Conference program Meeting Place OER, Nov 25 2021

On 25 November 2019, the UNESCO OER Recommendation was unanimously adopted by the member states, which will guide the work with open educational resources, open learning resources, globally. We from Meeting place (Mötesplats) OER Sweden pay attention to the day with a conference to discuss what happened, did not happen, and what we can do to implement the OER recommendation in Sweden.

We are proud to present a very interesting program for the day on November 25, 2021, with several interesting speakers with great competence and breadth in the field.

On 20 October 2021, the Swedish Government commissioned the Royal Library to map open learning resources and the public's participation in the research process, as well as to analyze the use of both open learning resources and the public's participation in the research process. The assignment will be carried out with a focus on the public library system.
